

NIFTEM students get wings — take to the sky

In an innovative approach to achieve excellence in academics, NIFTEM organizes one of its flagship programmes i.e., International Students Exchange Programme by sending its meritorious undergraduate and postgraduate students to different universities of world repute. Undergraduate students are exposed to the best of teaching environment and research facilities in those universities. Postgraduate students, apart from this, are also exposed to most advanced researches that are being undertaken in the area of food science and technology by active participation. Thus international students' exchange programme actually helps the students to broaden their horizon of knowledge.

In the academic year 2012-2013, students from NIFTEM visited University of Nebraska Lincoln (UNL), USA, Kansas State University (KSU), USA and University of Saskatchewan (USC), Canada. Based on the students' academic performance eight B. Tech first year and three M. Tech. first year students of different disciplines have visited UNL for 7 days and 19 days (24th July 2013 to 2nd August and 24th July 2013 to 11th August), respectively accompanied by two of the NIFTEM faculty members. Similarly four and two M. Tech. first year students of NIFTEM along with one NIFTEM faculty have visited KSU and USC, respectively, for a period of 19 days from 24th July 2013 to 11th August. During this visit B. Tech. students have attended lectures by faculties who are revered worldwide, visited various academic labs, food industries and agricultural farms associated closely with those universities. While M. Tech. students were also exposed to similar activities along with their hands-on experience to the various ongoing research activities in their concerned Universities.

M. Tech students visited to University of Saskatchewan (USC), Canada.
