About NIFTEM

NIFTEM is an autonomous institution setup under the Ministry of Food Processing Industries, Government of India, with aim to serve as an apex body to cater the needs of food processing sector. The institute act as a centre of excellence in the area of food technology and management. The Department of Agriculture and Environmental Science (AES) has been primarily focusing on the postharvest management of fruits and vegetables, supply chain management, storage, environmental impacts of food processing sector and outreach activities. The outreach efforts of the department provide innovative yet practical information to help people, businesses, and communities to find solutions, develop skills, reduce postharvest losses, and to build a healthy and wealthy nation from food security aspect.

About the Programme

The programme aims to update the recent developments in supply chain management, storage and processing of highly perishable horticultural crops, especially Tomato, Onion and Potato (TOP). These crops are top most priority under the Operation Green Mission which is a new scheme of Ministry of Food Processing Industries, GOI. The experts from academia and industry discuss the latest trends with focus on entrepreneurship aspect and management of these perishable commodities
