SEALING OF FLEXIBLE PACKS OF DRIED BYADGI CHILLIES AND PRODUCTS

- ☐ The types of sealing of pouches from flexible plastic based materials
 - Centre seal formation
 - Three sides seal formation
 - Four sides seal formation
 - Strip pack formation
- ☐ The vital link in the performance of the pouch is the seal integrity.
- The performance of the heat seal layer is very important.
- Even if the film structure has been designed with exceptional properties, with excellence in interlayer lamination, if the sealing of the pouch fails, the product may get contaminated
- If the sealing fails, the food product in pouches become unfit for consumption.
