World Food Safety Day 2024

7th June
2024

'PERFECT'

Protective Efforts and Rapid Food Emergency Control and Testing

World Food Safety Day is an annual global event dedicated to raising awareness and taking action to prevent, detect, and manage foodborne risks. This year, we're coming together to emphasize the importance of readiness and proactive measures in safeguarding our food supply.

Why Food Safety Matters

Safe food is not just a necessity; it's a fundamental human right. Unfortunately, food safety incidents can occur due to accidents, control lapses, fraud, or natural events, posing serious health risks to consumers worldwide.

Our Call to Action

We believe that addressing food safety incidents requires collaboration and commitment from policymakers, food authorities, farmers, businesses, and consumers. Together, we can make a difference by:

- **Preventing:** Implementing stringent safety measures and protocols.
- **Detecting:** Enhancing surveillance and monitoring systems to identify potential risks early.
- **Managing:** Taking swift and effective action to mitigate the impact of foodborne hazards.

Get Involved and Join Us in Celebrating World Food Safety Day

As we come together to celebrate World Food Safety Day, join us on June 7th for the webinar titled '**PERFECT: Protective Efforts and Rapid Food Emergency Control and Testing.**'

4.00 – 4.03 pm

Welcome Address
Dr. Prarabdh Badgujar
Assistant Professor, NIFTEM

4.03 – 4.15 pm

Inaugural Address
Dr. Harinder Singh Oberoi
Director, NIFTEM, Kundli

4.15 – 4.35 pm

Key Note Address:
Management of Food-borne Disease
Dr. Iddya Karunasagar
International Food Safety Consultant (FAO, WHO, ADB) and Senior Director (International Relations)
NITTE University, Mangalore

4.35 – 4.45 pm

Recent Developments for Enhancing Food Safety of Biological Hazards @ NIFTEM-K
Dr. Neetu K. Taneja
Assistant Professor, NIFTEM

4.45 – 5.00 pm

Emerging Food Safety Challenges
Dr. Amit Sharma
Director (Food Safety), FSSAI

5.00 – 5.15 pm

Recent Developments for Enhancing Food Safety of Chemical Hazards @ NIFTEM-K
Dr. Chakkaravarthi
Assistant Professor, NIFTEM

Dr. P. Murali Krishna
Professor, NIFTEM

5.15 – 5.30 pm

Technological Innovations for Rapid Detection and Mitigation of Food Contaminants.
Mr. Naresh Kumar
Application Specialist, Biomerieux

5.30 – 5.45 pm

Applications of non-thermal food processing technologies for ensuring food safety.
Dr. Kathiravan Krishnamurthy
Illinois Institute of Technology, Chicago, USA

5.45 – 5.50 pm

Vote of Thanks
Dr. Bhaswati Bhattacharya
NIFTEM

End of the Program
